GOVERNMENT OF INDIA NATIONAL TECHNICAL RESEARCH ORGANISATION BLOCK-III, OLD JNU CAMPUS, NEW DELHI-110067

NOTICE

Subject: Engagement of IT Professionals/Engineers as Consultant.

National Technical Research Organisation invites registration of desirous IT Professionals for engagement as Consultant in the following positions purely on contract basis for which the ONLINE registration is scheduled to start on 19.10.2022 (Wednesday) (1700 Hrs) and will remain open till 07.11.2022 (Monday) (1700 Hrs):-

(i) Category 'A'

Position (Location)	No of Positions	Maximum Age Limit	Qualification	Working Experience
Cyber Security Analyst (Location : New Delhi/ Bengaluru/ Mumbai/ Kolkata)	(a) 23	(a) 35 Years (minimum 3 Years experience)	Essential: BE/ B. Tech (Computer Science/Computer Engineering/ Information Technology/ Electronics/Electronics & Communication/ Electronics & Telecommunication) /MCA with First Division or with minimum 60% marks in aggregate from a recognized University/Institution.	Essential: Experience in Cyber Security in the following domain: Design/implementation of enterprise level IT network or implementation and running OT network or Security Operation Centre (SOC) operations or Security Incident and Event Management (SIEM) operations/ SOAR operations/ Analytical ability to analyze suspicious cyber activities detect threats, find vulnerabilities etc.
	(b) 13	(b) 45 Years (minimum 6 Years experience)	Desirable: Security certifications like CISSP or CISA or SOC/SIEM analyst or SOC/SIEM administration or SOC/SIEM threat hunting or SOC/SIEM operations/ configuration or Cisco Certified CyberOps Associate/CompTIA Security+ or CEH or any equivalent certification.	Desirable: More hands on experience in SOC/SOAR/SIEM environment/Good understanding of MITRE ATT&CK framework/Analytical ability to assess infrastructure security requirement, risks and data/understanding of malware code and propagation techniques/ Ethical hacking skill etc.

Page 1 of 27

Software Programmer (Location: New Delhi)	04	(a) 35 Years (with 4 Years & above experience)	Essential: BE/ B.Tech (Computer Science/ Computer Engineering/ Information Technology/ Electronics & Communication)/MCA with First Class/ Division or with minimum 60% marks in aggregate from a recognized University/ Institution.	Essential: Experience in Cyber Security with specialization in: Programming languages(JAVA/PHP/ Python Web Development) and Database management.
			Desirable: Certification from Coursera or edX or Udacity or Codecademy or equivalent in Coding/ Security.	Desirable: Security Tools developed and published at Github/ Bug Bounty winner. Knowledge of DevSecOps.
Risk Analyst (Location: New Delhi)	(a)04 (b)05	(a) 30 Years (with 01 years & above experience) (b) 35 Years (with 03 years & above experience)	Essential: BE/ B. Tech (Computer Science/ Computer Engineering/ Information Technology/Electronics & Communication)/ MCA with First Class/ Division or with minimum 60% marks in aggregate from a recognized University/Institution. Desirable: Certifications like CEH or equivalent.	Essential: Hands on Experience in: Vulnerability Assessment and Penetration testing of Web/Mobile applications and Networks. Knowledge of Python/Java/PhP.

	(c) 01	(c) 45 years (with 05 years & above experience)	Essential: BE/ B. Tech (Computer Science/ Computer Engineering/ Information Technology/ Electronics & Communication) MCA with First Class/ Division or with minimum 60% marks in aggregate from a recognized University/ Institution. Desirable: Certifications like OSCP Certification like CISA/CISSP/CRISK/ ISO, IEC or equivalent standards.	Essential: Hand on experience on VA/PT activities or Cyber Security Audits or ISMS/IS Policy review/implementation. Desirable: Experience in Risk Assessment/ Risk Management Framework and Security Controls/ Analytical skill to assess security requirement, risk and data/ Experience in developing concise oral and written summaries of complex technical scenarios and in presenting across diverse audiences (both for technical and management consumption).
Network Administrat or (Location: New Delhi/ Mumbai, Bengaluru, Kolkata)	02	35 Years (with 4 Years & above experience)	Essential: BE/ B. Tech in Computers/Computer Science/ Computer Technology/ Information Technology/ Electronics/Electronics & Communication with First Class/Division or with minimum 60% marks in aggregate from a recognized University/ Institution. Desirable Certifications like CCNP, CCNA or equivalent.	Essential: Installation, configuration, troubleshooting of servers (preferably RedHat)/ Network devices viz. Router, Manageable Switches and Firewall. Desirable RAID configuration/ Hadoop Cluster Management, configurations & troubleshooting/ Management and configuration of AAA server.

Power & Energy Sector IT & OT Security consultant (Location: New Delhi)	(a) 01	62 Years (Minimum 15 years Power and Energy domain/ industry experience in IT & OT Systems)	Essential: B.Tech/ M.Tech/ MCA or equivalent. Desirable: Certifications like ISA/ IEC 62443 CRAS or Certification in SCADA Security Architect (CSSA) /Certified Lead SCADA Security Manager/Global Industrial Cyber Security Professional (GICSP) or equivalent. MBA/ Diploma in Business Administration.	Essential: At least 05 years Work Experience in IT/OT systems in Power Generation/Transmission/ Grid Operation/ distribution utilities or Energy utilities at mid/top management level. Desirable: Working Experience in more than one domain as mentioned above. Experience of looking after cyber security of IT & OT systems in Power or Energy sector. More experience of working in information security standards & frameworks (e.g. ISO, NIST, etc.), strategy, planning & policy formulation.
	(b) 02	50 Years (Minimum 10 years Power and Energy domain/ industry experience in IT & OT Systems)	Essential: B.Tech/ M.Tech/ MCA or equivalent Desirable: Certifications like ISA/ IEC 62443 CRAS or Certification in SCADA Security Architect (CSSA)/ Certified Lead SCADA Security Manager/Global Industrial Cyber Security Professional (GICSP) or equivalent. MBA/ Diploma in Business Administration	Essential: At least 03 years Work Experience in IT/OT systems in Power Generation/Transmission/ Grid Operation/ Distribution utilities or Energy utilities at mid/top management level. Desirable: Working Experience in more than one domain as mentioned above. Experience of looking after cyber security of IT & OT systems in Power or Energy sector. More experience of working in information security standards & frameworks (e.g. ISO, NIST, etc.), strategy, planning & policy formulation.

BFSI Sector	(a) 01	62 Years	Essential:	Essential:
IT Security Consultant (Location:		(Minimum 15 years domain/	B.Tech/ M.Tech/ MCA or equivalent Desirable:	At least 08 years Work Experience in BFSI Sector utilities IT systems at mid/Top management level.
New Delhi)		industry		Desirable:
		experience in IT/Cyber/ Information Security)	er/ Lead Auditor/ Lead	Experience of looking after cyber security of IT/ICT systems at BFSI sector. More experience of working information
			MBA/ Diploma in Business Administration.	security standards & frameworks (e.g. ISO, NIST, etc.), strategy, planning & policy formulation.
	(b) 02	50 Years	Essential:	Essential:
		(Minimum 10 years	B.Tech/ M.Tech/ MCA or equivalent	At least 05 years Work Experience in IT systems of BFSI Sector utilities at
		domain/ industry	Desirable:	mid/top management level.
		experience in IT/Cyber/ Information Security)	Lead Auditor/ Lead Implementer Certification or certifications like CISSP or equivalent MBA/ Diploma in Business Administration. Exp. sect sect sect sect information.	Desirable:
				Experience of looking after cyber security of IT/ICT systems at BFSI sector.
				More experience of working in information security standards & frameworks (e.g. ISO, NIST, etc.), strategy, planning & policy formulation.
Cloud Infrastructur	01	45 Years	Essential:	Essential:
e Security Consultant (Location: New Delhi)		(Minimum 7 Years' experience in relevant work area)	BE/ B.Tech (Computer Science/ Computer Engineering/ Information Technology/ Electronics/ Electronics & Communication/ Electronics & Telecommunication)/ MCA with First Division or with minimum 60% marks in aggregate from a recognized University/Institution.	Experience in managing large organization cloud infrastructure. Setting up architectures using cloud providers like AWS, Microsoft Azure, Google Cloud or others. Desirable: Experience in Cloud Migration Policy development, Cloud Security and Risk Assessment.

			Desirable: Security certifications on Google Cloud Architect or Microsoft Azure Solution Architect Expert or AWS certified Developer or CompTIA Cloud+ or CCSP or equivalent.	
Data Centre Security Consultant	02	45 Years (Minimum 7	Essential: BE/ B.Tech (Computer	Essential: Hands on experience in maintaining
(Location:		years & above	Science/ Computer Engineering/ Information	datacenter equipment (e.g. server, backup etc.), perform updates, maintain
New Delhi)		experience in relevant work area)	Technology/ Electronics & Communication/ Electrical & Electronics/	data center inventory, disaster recovery process and documentation, troubleshoot data network issues.
			Electrical)/ MCA with First Class/ Division or with minimum 60%	Desirable:
			marks in aggregate from a recognized University / Institution.	Experience in handling Tier 3 or above data center.
			Desirable:	
			Certifications like Certified Data Centre Professional (CDCP)/ Certified Data Centre Specialist (CDCS)/ Certified Data Centre Expert (CDCE) or equivalent.	

Selection Criteria:-

The evaluation/selection criteria is based on 'Quality & Cost Based Selection Method'(QCBS) of selection in the ratio of 80:20 (80% weightage to quality i.e. qualification, skill set, experience, industry certification, performance in interview etc. & 20% on cost i.e. expected remuneration).

Required job responsibilities/tasks:-

(A) Cyber Security Analyst

(i) Signature based threat detection

- (ii) Incident Report (IR) generation.
- (iii) Third Party Intelligence Compilation.
- (iv) Management of Whitelist and Lookup Table.
- (v) Dissemination of LoCs generated through Threat Intelligence platform.
- (vi) Behaviour based Anomaly Detection.
- (vii) Traffic Analysis.
- (viii) Aggregated Event Analysis.
- (ix) Cyber Threat Hunting.
- (x) Preparation and Dissemination of cyber threat reports.
- (xi) Threat Modeling.
- (xii) Threat Attribution and Campaign Identification Seeking feedback for closing tickets based on cyber threats reported.
- (xiii) Policy tuning for cyber Threat detection
- (xiv) Supervising L2 and L1 Analyst.
- (xv) IT/OT security control documentation.
- (xvi) Operate and use relevant toolsets, such as SIEM and SOAR, threat intelligence, cyber forensic, incident management and ticketing tools.
- (xvii) Script writing to find key patterns form large system log files.
- (xviii) Carry out incident response as per IR SOPs and playbooks.
- (xix) Deep dive into datasets to understand what happened during and after attack and use data visualization tools to provide deeper insights.
- (xx) Analyze multiple data/intelligence sources and sets in order to identify patterns of activity for attribution to threat actors and develop informed recommendations.

(B) Software Programmer

- Design and Development of various software modules for phishing intelligence and Social Engineering protection.
- (ii) Design and Development of software modules and scenarios for Cyber Range and CTF challenges.
- (iii) Automation of NCIIPC IT activities and functions by development of web applications using software packages/ stacks/ frameworks.

(C) Network Administrator

- (i) Configure/Installation/troubleshooting of enterprise level IT network.
- (ii) Manage and configure layer 2/3 devices and other perimeter security appliances like UTM/Firewall etc. vis ACL configuration, routing tables, VLAN creation etc.
- (iii) Server installation and troubleshooting vis SFTP server, Email server, Web Server etc.
- (iv) AAA server configuration and management.
- (v) Server based AV configuration and management.

- (vi) OS/patch update management.
- (vii) Configuration and management of NOC/NMS.
- (viii) Data Centre patch cable management and configuration.
- (ix) Configuration of Security protocols over the network like IPSEC etc.
- (x) Identity and role-based access management.

(D) Risk Analyst

- Conduct Vulnerability Analysis and Penetration testing of Web Applications/Mobile Applications/Networks.
- (ii) Review VAPT Reports and suggest remedial measures.
- (iii) Conduct Cyber Security Audit.
- (iv) Conduct review of ISMS/IS policies.
- (v) Conduct Risk assessments and review of Risk Assessment reports.
- (vi) Suggest Risk treatment strategies and plans.
- (vii) Review network architecture and identify gaps.

(E) Power & Energy (P&E) and Banking, Financial Services & Insurance (BFSI) Sector Security Consultant

- 1. Support NCIIPC sectors and zones in their engagement with Ministries, Regulators and P&E/BFSI Critical Sector Entities (CSEs) as under:
- (a) Build and maintain knowledge base of all CSEs in the region.
- (b) Identification of Critical Information Infrastructure (CII) elements.
- (c) Development of plans, adoption of standards & best practices, refinement of procurement processes with respect to CII protection.
- (d) Threat models, impact assessments, protection, strategies, policies, cyber security & risk management frameworks, vulnerability assessment & auditing methodologies, advisories and audit notes on CII protection and their review in P&E/BFSI sector.
- (e) Share information and expertise on CII across various sectors.
- (f) Forecast all possible threat vectors to P&E/BFSI Sector entities and suggest remedial measures/strategies in advance.
- (g) Assist affected CSEs and various Govt agencies to coordinate response to attack on CII across affected sectors in the region.
- 2. Build domain knowledge and industry expertise at NCIIPC for the P&E/BFSI critical sector. Provide domain knowledge and expertise in interactions with international agencies.
- 3. Support National Threat Analytics teams to build situational awareness, analysis, forecasting & assessment of threats to CIIs of the P&E/BFSI critical sector.
- 4. Support NCIIP teams to build and manage a pool of highly skilled individuals and niche organisations, who can help NCIIPC in its objectives.

- Isixiu

Page 8 of 27

(F) Cloud Infrastructure Security Consultant

- (i) Review Cloud Migration strategies and suggest appropriate policies/guidelines
- (ii) Policy formulation and review on Cloud Infrastructure Security
- (iii) Cloud Migration Risk Assessment & suggestion of mitigation measures/strategies
- (iv) Cloud incident handling
- (v) Assessment of Cloud based solutions from Cyber and Information Security point of view
- (vi) Cloud Architecture view

(G) Data Centre Security Consultant

- (i) Data Centre Security solution and architecture review
- (ii) Data Centre Incident handling and Root cause analysis
- (iii) Data Centre Risk Assessment & suggestion of mitigation measures/strategies
- (iv) Support NCIIPC sectors and zones in their engagement with Ministries, and Critical Sector Government Entities (CSEs)

(ii) Category 'B'

Position (Location)	No of Positions	Maximum Age Limit	Essential Qualification	Working Experience
Senior Software Engineer (Location: New Delhi	02	40 years	M.Tech/ME/B.Tech/ BE (Computer Science/ Computer Technology/ Information Technology/ Electronics/ Electronics	3 to 10 years experience in the software design and development in reputed company / Organization
Team Leader (Location: New Delhi	02	45 years	& Communication/ Electrical & Electronics/ Electrical): or MSc (Computer Science/	10 to 15 years experience in the software design and development in reputed company / Organization
System Specialist (Location: New Delhi	01	45 years	(Computer Science/ Electronics): or MCA from a recognized University/ Institute with experience in the required domain from a reputed Company/ Organisation.	15 to 20 years experience in the software design and development in reputed company / Organization

Selection Criteria:-

The evaluation/selection criteria is based on 'Quality & Cost Based Selection Method'(QCBS) of selection in the ratio of 60:40 (60% weightage to quality i.e. qualification, skill set, experience, industry certification, performance in interview etc. & 40% on cost i.e. expected remuneration).

Special Skills desired

(a) Senior Software Engineer

Application Developer

- Experience in Angular JS/ReactJS/Advanced Java Scripts (OOPS), HTML5, CSS/CSS3, Bootstrap.
- Experience in at least one popular web framework (jQuery, Spring MVC),
- Microservices experience in either Node. Js or Spring Boot
- Experience in developing custom Elastic Search Java Client wrapper using JEST API
- Good knowledge of DB and NoSQL DBs like HBase, MongoDB
- Should have hands on experience in using Tomcat, JBOSS or other servers.
- Knowledge of Hadoop Technologies like MapReduce/Spark
- Knowledge of distributed programming platforms such as spark or Flink.

ETL Engineer (Talend)

- Hands-on experience working with Hadoop technologies like HDFS, Hive, MapReduce and experience with developing ETL using these technologies (Talend, SQoop and SPARK).
- Must have experience with dataloads in NoSql DBs and RDBMS
- Should have worked on majority of Talend components and can design simple ETL jobs to handle complex Business Logic.
- Should have knowledge of error handling and performance tuning in Talend.

Cluster Administrator

- Well verse with installation and configuration of Hadoop clusters desirably MapR
- Monitoring and tuning cluster performance
- Execute major platform software and operating system upgrades and maintenance across physical environments

(b) Team Leader

ETL Engineer (Talend)

- Hands-on experience working with Hadoop technologies and experience with developing ETL using these technologies (Talend, Sqoop and SPARK).
- Must have experience with dataloads into NoSql DBs and RDBMS
- TalendScriting experience and worked on TAC and TOS.
- Should have worked on majority of Talend components and can design simple ETL jobs to handle complex Business Logic.
- Should have knowledge of error handling and performances tuning in Talend.

Big Data Tester

- Strong Hands on Automation experience in Big Data ecosystem/ Hadoop applications/dashboard
- Data Ware house and Big data testing experience
- Testing of application developed deployed on Spark, Kafka, ETL Server, Hadoop Cluster and custom applications
- Knowledge of data flows, data architecture, ETL and processing of unstructured data,
 Data Quality
- Exposure to Hbase, Hive ElasticSearch, MapR
- Strong Experience in SQL, back-end testing of Database and /or BI/DW
- Developing test scenarios and test cases from requirements and design specifications and execute the test suites.

(c) System Specialist

Application Architect & Developer

- Experience in Angular JS/ReactJS/Advanced Java Scripts (OOPS), HTML5, CSS/CSS3, Bootstrap.
- Excellent Spring framework knowledge Spring Boot, Hibernate, Spring MVC, Struts, Security.
- Microservices experience in either Node.JS or Spring Boot
- Experience working in API development (RESTful and SOAP)
- Experience in developing custom Elastic search Java Client wrapper using JEST API
- Good knowledge of DB and NoSQL DBs like HBase, MongoDB
- Experience with Atlassian tools like JIRA nd Confluence.
- Experience developing in agile & with CI tools like GitHub, GitLab.
- Experience with Jenkins, Junit, test automation & reporting tools,
- Should have hands on experience in using Tomcat, JBOSS or other servers.
- Knowledge of Hadoop Technologies like MapReduce/Spark
- Hands on knowledge of distributed programming platforms such as spark or Flinkl.
- Hands on experience on Java/Scala/PySpark& Big Data Structures (RDD/Data Frame/Data set)

Position	No of	Maximum	Essential Educational	Desired skill set
(Location) Cyber	Positions*	Age Limit 40 Years	Qualification M. Tech / M.E (Computer science	System Level Programming
Security Researcher (Location:			/ Information Technology / Cyber Security / Information Security / Electronics & Communications /	for Operating system in C/C++/C#.
New Delhi)			OR B.E / B. Tech (Information Technology / Computer Science /	Proficiency with Reverse Engineering tools like IDA Pro./Ghidra
			Electronics & Communications / Electronics / Electronics / Electronics /	Malware Analysis
			OR M. Sc (Information Technology /	Root Cause Analysis of software vulnerabilities.
			Cyber Security / Electronics & Communication, Computer science) OR	Understanding of Exploits and its mitigations.
			MCA from a recognized university.	
Red-Team Expert (Location:	01	-do-	-do-	Information Technology Security Assessment & Penetration.
New Delhi)				Working knowledge of open source cyber security tools and red-team technologies.
				Working knowledge of softwares to detect vulnerabilities and deploy Red-Team simulations.
Android / IOS Security	05	-do-	-do-	For Android:
Researcher (Location: New Delhi)				Understanding of android architecture, android malwares, rootkits.
				Proficiency in android debugging and app reversing.
				Experience with static and dynamic binary analysis.
				Ability to reverse engineer android apps to identify vulnerabilities within apps.

				For IOS: Experience of developing IOS Apps and publishing it to APP store
				Knowledge of basic debugging, reverse engineering in IOS / Mac OS environment
				Knowledge about C, Objective C, swift, hybrid apps and Xcode IDE.
	e e			Knowledge of IOS and Mac OS architecture and assembly language programming.
Firmware Reverse	01	40 Years	-do-	Experience in reverse engineering firmware.
Engineer (Location: Bengaluru)				Proficiency with Reverse Engineering tools IDA Pro./ Ghidra.
Software Developer (Location: Bengaluru)	01	40 Years	-do-	Full-stack Software development experience.

Selection Criteria:-

The evaluation/selection criteria is based on 'Quality & Cost Based Selection Method'(QCBS) of selection in the ratio of 80:20 (80% weightage to quality i.e. qualification, skill set, experience, industry certification, performance in interview etc. & 20% on cost i.e. expected remuneration).

(vi) Category 'G'

Position (Location)	No of Positions	Maximum Age Limit	Essential Educational Qualification	Working Experience
Remote Sensing Data Specialist (New Delhi)	02	35 Years	B. Tech / M. Tech (Remote Sensing / GIS / Geoinformatics/ Geomatics/ Computer Science/ Information Technology/ Electronics & Communication) from a recognized University/ Institute.	required skillsets from a reputed Company /

Selection criteria:-

The evaluation/selection criteria is based on 'Quality & Cost Based Selection Method'(QCBS) of selection in the ratio of 80:20 (80% weightage to quality i.e. qualification, skill set, experience, industry certification, performance in interview etc. & 20% on cost i.e. expected remuneration).

Desired special skillsets:-

Remote Sensing Data Specialist

- (i) Organize data acquired from aircraft, satellites, or ground-based platforms, using statistical analysis software, image analysis software, or Geographic Information Systems (GIS).
- (ii) Proficiency in Process and Organize geospatial data sources to create products such as land cover maps, Change detection etc.
- (iii) Build databases for remote sensing or related geospatial project information.
- (iv) Customize and integrate image relate applications through ANN and Fuzzy logics, image classification techniques, including unsupervised classification, supervised classification etc.
- (v) Efficient in using COTS and open source remote sensing software such as ERDAS Imagine, ENVI, QGIS, GRASS etc.
- (vi) Proficiency with Image processing, classification and assessment.

(vii) Category 'H'

Position (Location)	No. of Positi ons	Age Limit & Work Experience	Essential Educational Qualification	Desired skills
System Specialist (Location: New Delhi)	01	45 years (with 15 to 20 years working experience)	M.Tech/ME/B.Tech / BE/ MCA (Computer Science/Information Technology/Electron ics and Communication) from a recognised University/Institute.	 Angular JS/React JS/Advanced Java Scripts (OOPS), HTML5, CSS/CSS3, Bootstrap. Strong hands on experience with mNodeJS, ReactsJS, HTML, CSS, JQUERY. Working knowledge on NodeJS/ExpressJS. Good knowledge of geospatial librarios such as Leaflet.
Senior Software Engineer (Full Stack Developer) (Location: New Delhi)	01	40 years (with 08 to 10 years working experience)	B.Tech/BE/MCA (Computer Science/Information Technology/Electron ics and Communication) from a recognised University/Institute.	 libraries such as Leaflet, Mapboxetc Good knowledge of Geoserver, PostgreSQL, PostGIS Deployment of applications on the application servers. Knowledge on Responsive Web Design. Knowledge of ML and Deep Learning algorithms
Senior Software Engineer (UI Designing/ Front End Developer) (Location: New Delhi)	01	40 years (with 05 to 07 years working experience)	B.Tech/BE/MCA (Computer Science/Informatio n Technology/Electro nics and Communication) from a recognised University/Institute	 Angular JS/ReactJS/Advanced Java Scripts (OOPS), HTML5, CSS/CSS3, Bootstrap. Strong hands on experience with mNodeJS, ReactsJS, HTML, CSS, JQUERY. Working knowledge on Responsive Web Design. Working knowledge on NodeJS/ExpressJS. Good knowledge of geospatial libraries such as Leaflet, Mapboxetc

Network Engineer (Location: New Delhi)	01	40 years (with 05 to 07 years working experience)	M.Tech/M.E. (Computer Science/Information Technology/Cyber Security/Information Security/Electronics & Communication): or BE/B.Tech (Information Technology/Comput er Science/Electronics & Communication/Ele ctrical & Electronics/ Electrical): M.Sc. Electronics/Comput er Science); or MCA from a recognised University.	 Installation configuration, troubleshooting of servers (Linux/Network devices viz. Router Manageable Switches and Firewall. Knowledge on Network Infrastructure Security Assessment and health monitoring. Desired certification: CCNA/MTCNA.
Geospatial Software Engineer (Ocean Data) (Location: New Delhi)	01	40 years (with 05 to 07 years working experience)	Masters degree in Oceans Sciences/Atmosph eric Sciences/Climate Sciences/Marine Sciences/Meteorol ogy/Oceonography Physical Oceanography/Phy sics/Mathematics [or] M.Tech/B.Tech (Remote Sensing/GIS/Geoin formatics/ Geomatics/ Computer Science/Informatio n Technology/Electro nics & Communication)	 Ocean observations (in situ, Remote Sensing, ship based), laboratory analysis, processing of high resolution ocean/atmospheric data. Ocean/atmospheric modelling model parameterization and data assimilation for providing operational services. Assimilation and representation of World ocean atlas data on GIS applications. Data analysis software (Ferret, python, GRADS, ODV etc.), programming languages (Matlab, C, Fortan, etc.), AI&ML applications, Ensemble techniques GIS Application development using open source GIS tools, Satellite Data processing (SeaDAS).

Geospatial Software Engineer (Location: New Delhi)	01	35 years (with 03 to 05 years working experience)	B.Tech/M.Tech (Remote Sensing/ GIS/Geoinformatics /Geomatics/Computer Science/Information Technology/Electronics & Communication); or MCA from a recognised University/Institute.	•	3-5 years required skillsets in Developing GIS based solution from a reputed Company/Organisation. Good knowledge of geospatial libraries such as Leaflet, Mapbox etc. Good knowledge of Geoserver, PostgreSQL, PostGIS
--	----	--	---	---	---

Selection Criteria:-

The evaluation/selection criteria is based on 'Quality & Cost Based Selection Method'(QCBS) of selection in the ratio of 80:20 (80% weightage to quality i.e. qualification, skill set, experience, industry certification, performance in interview etc. & 20% on cost i.e. expected remuneration).

19/x/22

(viii) Category 'I'

Position	No of Positions	Maximum Age	Qualification
(Location)		Limit	
AI/ML Consultant (Location: New	05	35 years (with 2 years	Essential:
Delhi)		and above experience)	B.Tech/B.E in Computer Science/Computer Engineering/Information Technology/Data Science/Artificial Intelligence/Machine Learning with First Division or with minimum 60% marks in aggregate from a recognized University/Institution
		10	OR
			B.Tech/B.E with First Division or with minimum 60% marks in aggregate from a recognized University/Institution with Certification in Artificial Intelligence (AI)/Machine Learning (ML)/Deep Learning (DL)/Data Science (DS) from Coursera or edX or Udacity or Codecademy or any other online learning or educational platforms
	2.		OR
			M.Tech/M.E in Artificial Intelligence (AI)/Machine Learning (ML)/Deep Learning (DL)/Data Science (DS) with First Division or with minimum 60% marks in aggregate from a recognized University/Institution
			OR
			Post Graduate diploma in Artificial Intelligence (AI)/Machine Learning (ML)/Deep Learning (DL)/Data Science (DS) from recognized University/Institution

Selection Criteria:-

The evaluation/selection criteria is based on 'Quality & Cost Based Selection Method' (QCBS) of selection in the ratio of 80:20 (80% weightage to quality i.e. qualification, skill set, experience, industry certification, performance in interview etc. & 20% on cost i.e. expected remuneration).

Required job responsibilities/tasks:-

AI/ML Consultant

(i) Build and implement right algorithms/models and tools for Text, Image/Video and Audio analytics

ANN X

- (ii) Train, test and deploy model locally as well as in private cloud.
- (iii) Preprocessing and storage of data for training and testing the AI/ML models
- (iv) Maintaining all models along with development and updating of code and process documentation.
- (v) Verifying data quality and/or ensuring it via data cleaning.
- (vi) Finding available datasets in open source domain that could be used for training
- (vii) Defining the preprocessing or feature engineering to be done on a given dataset.
- (viii) Defining data augmentation pipelines
- (ix) Analysing the errors of the model and designing strategies to overcome them
- (x) Deploying models to production

19/X/22

Term of engagement: - The period of contractual engagement shall be for a total period of 3 years. Performance of the engaged professional shall be evaluated periodically. Continuance of contract up to total 3 years would depend upon such periodical assessment/evaluation of performance and organizational requirement.

Value of the Contract:- Value of the contract for total period of 3 years shall be in the range of Rupees 16 lakhs to 60 lakhs. The value of contract shall be fixed based on educational qualification, relevant experience and requisite skill set possessed by the candidate and his performance as assessed by the selection committee.

- (a) Illustration: The monthly payout for the value of the contact of Rupees 16 lakhs for a total period of 3 years would be as under:-
 - (i) Rs 41333/- per month for First year.
 - (ii) Rs. 44000/- per month for Second year.
 - (iii) Rs. 48000/- per month for Third year.
- **(b)** The monthly pay out (for each year) for the value of the contract above 16 Lakhs shall be fixed proportionately.
- (c) Increase in monthly payout beyond first year are linked with the periodical performance assessment/evaluation as mentioned above.
- 2. Desirous candidates may visit the website https://ntro.gov.infor ONLINE Registration. During online registration, the candidates are required to fill up the relevant field giving details-of-experience/skill-set/industry-certification possessed by them. They are also requested to bring the print out of their ONLINE Registration Form at the time of interview/selection. Those who have not registered online will not be allowed to appear for selection. The dates for ONLINE Registration mentioned above are tentative and the organization reserves its right for any change of date, re-schedule or cancel the recruitment exercise, which would be notified in the above mentioned website.
- 3. Mere registration will not entitle the candidate to be called for further selection. The registered candidates are required to email legible scanned copy (PDF) of their (1) Matriculation / 10th Certificate, (2) BE/ B.Tech/ M. Tech / MCA / MSc Certificate (including provisional certificate if final degree certificate is awaited, in support of requisite Essential Qualification for the position applied for), and (3) Photo ID (AADHAR / PAN Card) at recruitment.adm@ntro.gov.in from their registered email ID by 05:00 PM of the last date of Online Registration of application, failing which their registration will be treated as invalid. Suitable criteria will be adopted by the organisation for short listing of candidates having valid registrations to be called for further selection.
- 4. Crucial date for determining possession of required experience as well as the essential educational qualification will be the last date of ONLINE registration.

- 5. The candidates are advised to choose the 'Category' and 'Position' therein carefully for which he/she meets the eligibility criteria, required experience/skill sets to apply for such position. A candidate can register for maximum of two positions. The NTRO shall, however, have the right to decide the position deemed more suitable for the candidate if he/she was selected for both.
- 6. The venue, date & time for reporting of the shortlisted candidates for selection will be uploaded in the said website. The candidates are requested to regularly check the website for updates.
- 7. This consultancy engagement will be purely on contracts basis. The person so engaged, will not have any claim or right for either regularization or absorption in the organization at any point of time. The candidates selected, will have to sign an agreement accepting the detailed terms and condition of the engagement.
- 8. Consultant(s) engaged on contract intends to resign during the term of engagement period, will have to give one month notice and also required to deposit with NTRO an amount equivalent to ONE MONTH OF LAST PAYOUT, before acceptance of such resignation. In the event of seeking acceptance of resignation before expiry of one month notice period, then he/she would be required to deposit with NTRO an additional amount equivalent to one month last payout in addition to other clearances / NDC.
