

**Requires Research Assistant
for online Executive Programme on Advanced Business Analytics (EPABA)**

Job Profile:

- (a) Provide online academic support (including holding of tutorial sessions, if required) to the participants on the subject materials discussed by the faculty. They would be expected to handle the bulk of the queries of the participants regarding the topics discussed. Only the more challenging queries are to be transferred to the faculty for answering. They would be expected to use Zoom / Google Meet / Whatsapp etc. or the service provider's platform for this purpose. Since these participants would be studying during the evening hours or in weekends the Research Assistants would have to make themselves available during these times.
- (b) Perform evaluation of the assignments, quizzes and projects as per guidelines given by the faculty.
- (c) Help the faculty develop new course materials, assignments and case studies that may be required for the programme.

Academic Requirements:

Essential:

- a) A first class Master's degree or its equivalent in Statistics/ Operations Research/ Computer Science / Mathematics / Data Science / Economics (with specialization in Econometrics) or a closely related subject preceded by a first class Bachelor's degree in a relevant subject.
- b) Proficiency in R and Python

Desirable:

- a) MBA / MMS/ PGDM / PGDBA degree/diploma with first class.
- b) Project/ Internship/ Job experience involving applications of statistical methods in solving real-life problems.

Compensation: Compensation will be commensurate with qualification and experience.

Duration : 6 months.
